

# MooD Platform 16.057 Hotfix 2

Announcing a release of important quality, security and stability fixes.  
21<sup>st</sup> February 2020

Thanks to excellent feedback from our internal teams and customers, we've put together a number of important quality, security and stability fixes to improve your MooD platform experience.

These fixes have been rolled into a hotfix for MooD 16.057, available now from the MooD Support Portal downloads page (<https://supportportal.moodinternational.com/hc/en-us/sections/115001521765-MooD-Enterprise>).

Hotfixes are cumulative and contain all bug fixes from previous hotfixes.

If you have questions on how to upgrade your estate, or you would like to know more about any of these fixes, please contact support ([moodsupport@caci.co.uk](mailto:moodsupport@caci.co.uk)).

The following issues have been addressed:

Issue #	Issue Title
11929	<b>ArchiMate</b> import stops updating fields if a specific bad import has occurred (or there's a whitespace plus further content added to the source)
11907	Cannot import relationships on relationships as part of the <b>ArchiMate</b> Import
11937	Snapshot Synchronizer Out of Memory or Crash when snapshotting the <b>ArchiMate</b> Blueprint
11952	<b>Document Synchroniser</b> (MDD) /BIE: Generating a large document can cause instability in the repository's BIE worker process
11914	<b>Document Synchroniser</b> (MDD): Custom Text Headings come out ignoring font style and in italics
11906	<b>Document Synchroniser</b> (MDD): The font size and theme are changing when exporting a formatted text field to Word then copying back to Mood
11932	<b>Document Synchroniser</b> (MDD): cannot set Title property if the source template doesn't contain a Title
11913	<b>Definition Window / Document Synchroniser (MDD)</b> : Setting font to Arial 11 in the definition window and then exporting to MDD shows Arial 12
11917	<b>Definition Window</b> : Fonts misreport as size 10 in the ribbon when pasted from word
11912	<b>Definition Window</b> : Can't easily remove formatting
11911	<b>Definition Window</b> : Can't paste as plain text
11916	<b>Definition Window</b> : Copying from Word and changing style causes the next line to go small when changing the heading font size
11943	Editing a <b>formatted text field</b> and navigating away does not offer a warning regarding unsaved work
11680	<b>Info Panel</b> Not Updating Fractional Number Measure Value in Swedish Locale
11925	<b>Queries</b> : 'Contains Word' doesn't pick up all results when upgrading from Rich Text Memo Fields (MooD 15)
11942	The 'Copy file' BIA was not executing from ' <b>Upload file</b> ' panel when part of a group
11945	SAT fails to update all records when <b>triggers</b> exist on MooDElementData table
11671	<b>Synchronizers not merging</b> with Integrator because of continual updates in live to the run-history logs
11226	The ' <b>Change password</b> ' panel doesn't display a 'Destination variable' input
11931	The ' <b>Change password</b> ' panel fails to reset password in MAE when 'password complexity' is enforced
10995	<b>Password Change</b> Through Status Bar Doesn't Work
11940	Model raises ' <b>Leave page</b> ' message on navigate after save
11935	Buttons fail to <b>upgrade</b> from Mood 2010
